Commissioner for Patents

The reply filed 12/2/05 is not fully responsive to the Office communication mailed 11/2/05 for the reason(s) set forth below or on the attached Notice To Comply With The Sequence Rules or CRF Diskette Problem Report.

Regarding applicants comments, 37 CFR section 1.823(b) discloses that section <223> is mandatory when the organism is "artificial sequence". However, said section does not disclose that description of the sequence in section <223> as antisense is optional. Section <223> (as per 1.823(b)) discloses that said section should contain "Other relevant information; four lines maximum". While 1.823(b) does not specifically elucidate the nature of said "Other relevant information", the previously filed sequence listing indicated that the sequences under consideration were antisense. Thus, the previously filed listing specifically designated relevant information regarding said sequences wherein said information would be encompassed by the "Other relevant information; four lines maximum" as per listed in section <223>.

Since the above-mentioned reply appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH** or **THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
